WHEREAS, after a period of thirteen years, the Board believes that the current networth/equity for license categories are not responsive to the present need considering the magnitude of projects being tendered by public and private project owners;

WHEREAS, likewise, the Board on 19 December 2003 and 16 January 2004 passed the Board Resolution Nos. 949, s. 2003 and 001, s. 2004, adopting the second (2<sup>nd</sup>) stage of Allowable Range of Contract Cost (ARCC) with corresponding Single Largest Project (SLP) for Size Ranges from Small A to Large B for Registration of Contractors for Government Projects that took effect on 01 July 2009;

WHEREAS, since 2009 up to the present PCAB have been implementing the 2<sup>nd</sup> stage of the Allowable Range of Contract Cost;

WHEREAS, based on review conducted by PCAB in collaboration with the Executive Director of CMDF, using the central tendencies of equities per category, the Board further believes that some of the equities may be doubled while others are adjusted based on the median of equities per category;
